

CAREER OPPORTUNITIES

Idaho Allergy and Idaho Research is always looking for qualified people to join our team. We believe that people with the “right fit” for our team are worth investing in even though we may not be proactively trying to fill a position. If you feel you have something to offer Idaho Allergy or Idaho Research, please send a confidential email either or all of the following:

- Clinician Inquiries: Julie@Idaho-Allergy.com
- Research Inquiries: Tim@Idaho-Allergy.com
- Clinic Inquiries: Awollen@Idaho-Allergy.com

We are currently seeking a clinician to join our team as an addition to our clinical staff. Because this is not a replacement position, we have not yet defined the specifics of the position and are open to a variety of situations that benefit both candidates and the organization. Qualities of a clinician we are actively recruiting are:

- Licensed (MD/DO/NP/PA) and in good standing with the Idaho Board of Medicine
- Experience in Allergy, Immunology, Asthma, or COPD. Board certification is highly desirable but not required
- A committed clinician to play integral role in delivering the best plan for patient outcomes. As a small, independent practice, this position will add value to organization by working intimately with our existing staff to deliver exceptional healthcare options to our patients
- Metric driven individual that does not substitute quality with quantity. We do not judge our performance simply on how many patients are seen, but how well care is delivered.
- A key member in the operational team. We want someone who will help develop goals and expectations for the organization as well as our team members.
- An individual committed to clinical research and development of new treatments. Our clinic utilizes both standard of care and participates in FDA regulated trials to discover cutting edge new treatments.
- If you feel you may be the right fit for Idaho Allergy, please contact us to discuss the possibilities. All inquiries and discussions are held strictly confidential.

Idaho Allergy offers a complete compensation package in addition to a supportive work environment. Idaho Allergy provides equal opportunity in all of our employment practices to all qualified employees and applicants without regard to race, color, religion, gender, sexual orientation, national origin, age, disability, marital status, military status or any other category protected by federal, state and local laws.
